### **PREVENTING FRAUD AND MONEY LAUNDERING:**

CWON AUST employs an effective financial management program that allows us to record, track and reconcile funds raising and donation revenue with funds deployed in various projects and programs. Regular project/program budgets are prepared and tracked closely to detect any variance in expenditure. Budget reviews are undertaken regularly.

CWON AUST also rigorously monitors the design, implementation, management and results of our overseas projects and programs. We believe that monitoring and evaluation is a crucial part of determining the success of our projects and partners, and a key part of our measures of success is ensuring fraud and money laundering does not occur. This includes:

1. A process where CWON AUST works with the Partner to complete implements a program or project with proper Due Diligence, including the Project Plan and Project Budget.
2. A process during and after the project where CWON AUST conducts monitoring discussions with the Project Leader and our Partner Organisation. This monitoring includes internal monitoring from CWON AUST representatives on-site, as well as independent third-party monitoring on-site. The frequency of the monitoring varies according to the type of project undertaken.
